

Disposables

for the professional caterer

Terinex Toasting Bags

Silicon coated fabric re-useable* toasting bags. Can be used to make all kinds of Toasted Sandwich in conventional toasters and toasting ovens.

Toasted sandwiches can be made in just 3 minutes (depending on filling and browning required)

Re-usable toasting bags can also be used to heat up wraps, samosas and savoury or sweet pastries such as cheese slices, sausage rolls and apple turnovers. Terinex toasting bags are primarily designed for use in variable width slot type toasters. When using a standard non-variable slot toaster, toasted sandwiches may need to be made with thinner bread and it may be necessary to compress the sandwich after putting it in the bag.

*Limited reusability - can be used up to 40 times

Code	Size/Contents	Packed
12801	16.5cm x 16cm Toasting Bags	50 per box

Clarity Sandwich Bags

Clarity clear sandwich bags are designed for pre-sale preparation of sandwiches and for toasting sandwiches in infra-red grills, keeping grills free from melted fillings. When used in infra-red grills the Clarity clear sandwich bags help crisp the outside of the sandwich whilst allowing the filling to remain moist and delicious.

Manufactured from food approved cellulose.

Code	Size/Contents	Packed
12800	15cm x 18cm Sandwich Bags	1000
